- ✓ NTSC/PAL Video Out port with RCA connector
- ✓ 2 year warranty

BoviScan Linear

This machine is marked by its simplicity. Designed specifically for "arm in cow" ultrasound examinations this unit is lightweight, user friendly, and portable.

FEATURES/SPECS

- ✔ 6.5 MHz 60 mm linear rectal probe (5.0 to 9.0 MHz)
- ✔ 80 element ruggedized probe
- ✔ Built-in 8 hour lithium ion battery
- ✔ Charge from 120/240 VAC or 12 DC (Car Charger)
- ✔ Battery indicator on display
- ✔ 1.54 kg (3.4 lb) weight including battery
- ✔ Can be used while charging
- ✔ Splash proof
- ✔ Comfortable waist strap
- ✔ Protective gel sleeve for added protection
- ✔ Works with OJO Goggles & Bright LCD monitor
- ✔ Compatible with Linear ReproArm
- ✔ Up to 4 preset examination settings
- ✔ 4 to 16 cm Rapid Zoom with indicator
- ✔ Multiple grid setting for measuring and aging fetus
- ✔ VGA 5 VDC Video Out port with LEMO connector
- ✔ NTSC/PAL Video Out port with RCA connector
- ✔ 2 year warranty

BoviScan HD

This high definition unit contains the latest ultrasound technology. With higher resolution and higher quality images the HD allows for an extremely accurate exam. The HD increases user comfort through streamlined probe size and reduced cord diameter.

FEATURES/SPECS

- ✔ 7.5 MHz 60 mm linear rectal probe (5.0 to 9.0 MHz)
- ✔ 128 Element ruggedized probe
- ✔ 8 hour lithium ion built-in battery
- ✔ Charge from 120/240 VAC or 12 DC (Car Charger)
- ✔ Can be used while still charging
- ✔ Battery indicator on display
- ✔ 1.54 kg (3.4 lb) weight including battery
- ✔ Splash proof casing
- ✔ Protective gel sleeve for added protection
- ✔ Comfortable waist strap
- ✔ Works with OJO Goggles & other popular goggles
- ✔ Compatible with bright LCD monitor
- ✔ Compatible with Linear ReproArm
- ✔ Up to 4 preset examination settings
- ✔ 4 to 16 cm Rapid Zoom with indicator
- ✔ Multiple grid setting for measuring and aging fetus
- ✔ VGA 5 VDC Video Out port with LEMO connector
- ✔ NTSC/PAL Video Out port with RCA connector
- ✔ High Resolution
- ✔ 2 year warranty on both unit and probe

ReproScan LED

This multi-probe unit is versatile, portable, and affordable. An excellent choice for the mixed animal veterinarian, it's built-in LED screen offers a bright and clear image.

FEATURES/SPECS

- ✔ 5 probe options for large and small animal examinations
- ✔ 6.5 MHz linear and 4.0 MHz convex rectal probe options
- ✔ C20 6.5MHz, C60 3.5MHz, L40 7.5 MHz probe options
- ✔ 5 hour interchangeable lithium ion battery
- ✔ Can be powered from 120/240 V and 12V DC Car Charger
- ✔ Battery indicator on display
- ✔ 3 lbs including battery
- ✔ Protective gel sleeve for added protection
- ✔ Compatible with up to 4 ReproArms
- ✔ CINE loop/zoom/freeze/store
- ✔ 100 images of internal storage
- ✔ Measurement calipers
- ✔ Splash proof buttons
- ✔ Multiple species fetal aging software
- ✔ Multiple display options from VGA output
- ✔ Bright 14 cm 5.5 in LCD display
- ✔ 1 year warranty on ultrasound unit & probe

Graham Innovations NFI 5000

Compatible with different ultrasound systems, the NFI5000 allows for complete versatility. With OLED technology it provides a bright, high resolution image. Both lightweight and durable, the NFI offers an excellent quality as well as excellent peripheral vision.

FEATURES/SPECS

- ✔ Durable sealed anodized aluminum casing
- ✔ Water resistant
- ✔ Adjustable brightness, contrast and image orientation
- ✔ Switchless-settings are changed via external magnet
- ✔ 60 grams (2 oz)
- ✔ Low power consumption
- ✔ PAL or NTSC signal compatible
- ✔ 1 year warranty

ReproScan Monitor 2.0

The same trusted performance as the Bright LCD Monitor, the Monitor 2.0 provides increased image quality to any machine. Now wireless when paired with the ReproScan XTC the Monitor 2.0 is even more versatile!

FEATURES/SPECS

- ✔ 1,000 nit brightness
- ✔ Anti-reflective screen coating
- ✔ IP65 weatherproof frame
- ✔ Touchscreen controls
- ✔ 8 hour built-in lithium ion battery
- ✔ Increased screen brightness to boost in-field visibility
- ✔ New software to increase image quality
- ✔ 1 year warranty
- ✔ Ram Mount compatible for easy set up
- ✔ Can be used while charging
- ✔ Comes in ReproScan's sunshade bag to reduce sun glare
- ✔ Direct-wire compatible with other ReproScan equipment
- ✔ Accepts 4 signals: 2.4 MHz wireless, VGA, HDMI and AV composite

Accessories

ReproArm

There are 4 uniquely engineered and designed ReproArms. Utilization of ReproArm technology reduces shoulder and arm strain on the practitioner. The ReproArm allows for safer and faster pregnancy diagnosis.

OPTIONS

REGULAR ARM	32" 85 cm
SHORTY ARM	23" 60 cm
KIWI ARM	27" 70 cm
LINEAR ARM	32" 85 cm

Bright LCD Monitor

Specifically designed for those bright sunny days, the LCD monitor is a game changer. This versatile monitor can be used with any of our units. The superior image quality allows for quick and accurate pregnancy diagnosis. The monitor works with VGA and Composite NTSC/PAL input signals, and has optional 2.4 GHz wireless capabilities.

OJO Goggles

Need complete mobility? The OJO goggles are a high resolution and a lightweight option. These goggles are comfortable and can be paired with any unit enabling you to have a wide field of view. Designed to maximize quality, the OJO's optimize mobility and clarity for users.
