

# ECO

# Dipper™

**SUPERB  
TEAT  
COVER**

**The ECO-Dipper™ offers optimum teat coverage but with vastly reduced chemical consumption**

#### Award winning features

- Uses 1/3 of the chemical of a normal dip cup
- Special feather brushes gently wipes away excess chemical
- Different coloured brushes for pre and post dip
- Long lasting - replaceable brushes
- Easily cleaned and serviced
- Non return chemical action
- Easy squeeze, stable bottle
- Lightweight, tough polypropylene construction
- Based on original US patent that set the industry standard

**GUARANTEED  
50-80%  
SAVINGS**

in pre and post-dip usage when using ECO-dipper™ over standard dip cups

#### Are you losing money?

If you are not using the ECO-Dipper™, This is how much money you are losing!

50 cows - 2 x day milking = loses £25 every 19.4 days = £450 a year  
100 cows - 2 x day milking = loses £25 every 9.7 days = £900 a year  
250 cows - 2 x day milking = loses £25 every 3.9 days = £2300 a year  
500 cows - 2 x day milking = loses £25 every 1.6 days = £5500 a year

#### Satisfied Customers

“ By using ECO-Dipper™ we have cut our dip expense to 1/3! We are very pleased with the dip coverage of these dip cups. ”

Siemers Holsteins  
Newton, Wisconsin

## Satisfied Users

### UK

**ECO-Dipper awarded the Certificate of Merit in the Prince Philip Award at the Dairy Event**  
Judge Ian Macalpine commented "A simple to use device, that offers instant savings and is affordable to all dairy farmers!"

**J&C Bellringer, Burlorne Tregose, Cornwall, milking 150 cows**

"Paid for the cup in 29 milkings and saving £700 a year. ECO-Dipper allows great savings meaning we can use better more expensive teat dip just less of it!"

**WJ Davies, Plasnew, Wales – 100 cows**

"Very good coverage with thicker chemicals like Uddergold, saves half the chemical and hardly any drips on the floor after milking – simple and well worth the money!"

**Mr Foote, Church Lane Farm, Hampshire, England – 120 cows**

"We have cut our usage of Genus Valiant by around 30-40% using the ECO-Dipper™. It takes a bit longer than a normal dip cup but the time saved in refilling dip cups evens it out"

**Mr R Carr, Whiteclose Rigg, Cumbria – 250 cows**

"Early days yet, but estimate we are saving 50% of the iodine dip and more importantly there has been no increase in cell counts or cases of mastitis!"

**Mr Howlett, Wicton Farm, Herefordshire – 300 cows**

"We are saving around half the chemical (50%) and are filling the Dip Cup a lot less often"

### Germany

Einfach super – wir sparen sicher mehr als 50% an Mittel und die Melker arbeiten zwangsläufig sorgfältiger. Wir sind extrem zufrieden und können den ECO-DIPPER nur empfehlen!",  
Peters-Holsteins, Körchow, Mecklenburg-Vorpommern, 600Kühe

„Endlich nahezu saubere Hände beim Melken und das Dippmittel kommt dahin wo es hin gehört“, Hille, Beienrode, Thürigen, 130 Kühe/Finally clean hands at milking and the dip is where it acually belongs to

„Wir sparen mindestens 50% und die Striche werden durch die Bürsten optimal benetzt“, Stefan Winkler, Midland-Holsteins, Braunfels, Hessen, 75 Kühe/Savings are at least 50% and the teats are covered perfect by the brushes

„Die Einsparungen sind wirklich enorm und die Melker werden automatisch diszipliniert. Ein preiswürdiges Produkt“. Schlunke, Michhof-Diera, Sachsen, 1000 Kühe  
Saving are really enormous and the milkers automatically get disciplined. A product very well worth the investment"

„Mit so wenig Aufwand so viel Geld sparen – das wünschte ich mir öfter“, Michael Knaust, Gudensberg, Hessen, 85 Kühe/with so little effort saving so much money – I wish this would happen more often"

„Wer verschenkt als Milcherzeuger schon gerne Geld. Der Eco-Dipper ist eine geniale Erfindung“, Volke-Hauck GbR, Wetterburg, Hessen, 75 Kühe/"Who can afford to waste money as a milkproducer. The Eco-Dip is a genius-invention"
