

# PRACTICAL BOVINE ULTRASONOGRAPHY

*Images of ultrasonic video recordings*

This course on bovine ultrasonography, is farm and classroom based and involves a maximum of 4 delegates.

The organisers' combined experience brings in knowledge and images from the UK, Canada, US, New Zealand and Europe. Enhance your understanding on how ultrasound examinations are carried out in the UK and abroad.

We shall discuss:

- Stages of the oestral cycle: Pre-oestrus, Oestrus, Met-oestrus and Di-oestrus
- Pregnancy diagnosis and ageing the foetus, from early to mid to late
- Gender determination and identifying twins
- Foetal and dam reproductive anomalies
- Beyond rectal examinations to aiding your clinical diagnosis.

**Thu 7<sup>th</sup> November 2019 08:30 – 15:30**
